## [BRANDING 2010]

*In this module we are going to cover and try to answer the following issues and questions:*

- *What is a Brand?*
- *Why we need one?*
- *How many we need to make business properly?*
- *How to organize your brand set, and what is brand architecture?*
- *What means “brand extension” and “brand stretching” strategies?*
- *How to deal with its definition, launching, developing and brand maintenance processes?*
- *What should be the financial perspective of the branding process?*
- *How must be conducted the integration of branding with other business processes, as marketing and “clienting” ones?*
- *What is the relationship between branding, product platforms and models, and their respective life cycles?*
- *What makes the difference between a “recognized brand” and a “lovemark” and how to cover the way among them?*

Module Program
